You can schedule a tour of the fire stations for your scout group, preschool and school class, church group, civic group or you just want to bring the kids down to see the trucks. It is best to call before and schedule a time and date that would be best for both you and the firefighters. Please note: We never take a truck out of service for tours so if you arrive at the station and there is no one there it is because they have been called to an emergency. Or during your tour they get a call they will have to ask you to leave before the tour is over. Please remember our first priority is the assist the citizens of our community in emergency situations.
