

State Route 347 & The East/West Corridor

The Pinal Regional Transportation Authority

The Pinal RTA is fully committed to ensuring State Route 347 and the East/West Corridor projects are completed as defined in the Pinal Regional Transportation Plan and that the transportation needs of Maricopa residents are represented in the Pinal RTP.

Community Meeting, May 2017

In May 2017, the Pinal Regional Transportation Authority met with the community in the City of Maricopa and learned that improved and alternate access to Interstate 10 were top priorities for the community.

The Pinal Regional Transportation Plan

As a result of public feedback, State Route 347 and the East/West Corridor were identified on the Pinal Regional Transportation Plan as a means to provide improved and alternate access to Interstate 10.

Moving Forward...

The Pinal Regional Transportation Authority anticipates both projects moving forward, knowing that these are priorities for the community at large. They are committed to working with local agencies, the tribal communities, and other stakeholders to ensure these projects are funded and scheduled as identified in the plan.
